

Curriculum Vitae

Dr. Gerd Wingefeld

Dr. Gerd Wingefeld is a member of the SGL Carbon SE's Board of Management effective October 1, 2008 (until January 23, 2009 known as SGL Carbon AG). He is responsible for the Business Area Graphite Materials & Systems (GMS), which has been managed by him since the beginning of 2007. In addition, he is also leading the Group's R&D department (Technology & Innovation) as member of the Board of Management.

Dr. Wingefeld was born on January 21, 1958. After finishing his master course of Chemistry at the Giessen University, he obtained his PhD there in 1984. His career started with research projects on "materials" at Hoechst AG's research centre at the end of 1984. After assuming different responsibilities with Celanese, which split off from Hoechst AG, he switched to SGL Group in 2002, actively engaged with various international management functions in field of production and technology development.

Dr. Wingefeld is married and has two children.
